

# PAPA

## Hanging Height Restriction

**3 different types**  
are available in the  
range

### Description

The Hanging Height Restriction PAPA is a robust and highly visible height restriction marker in a warning yellow colour. It is designed for clearly indicating maximum height limits in drive-through areas. This height limiter helps prevent damage to vehicles and infrastructure by providing a clear height indication.

### Product Features:

- **Colour:** Yellow with black end caps
- **Available Widths:** 1000 mm, 1500 mm, 2000 mm
- **Size:** 140 mm
- **Includes:** Mounting materials
- **Usage:** Ideal for use in underground garages, parking facilities, workshops, or other areas where precise height restriction is required.
- **Mounting:** The product comes with all necessary mounting materials and is easy to install.

### Technical Information

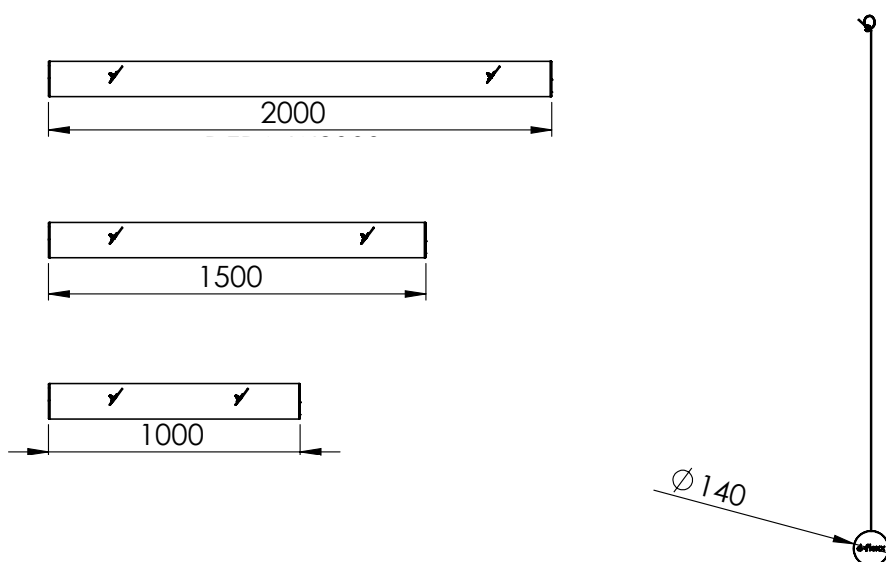

Operational Temperature Range:	-40°C up to +50°C / -40°F up to +112°F
Ignition Temperature:	350-360°C / 662 - 680°F
Flash Point:	350-360°C / 662 - 680°F
Toxicity:	Nontoxic
Chemical Resistance:	High-ISO / TR 10358
UV Stability	Gray scale: 5/5
Changes to material after 5 years:	Blue Wool scale: 8/8 Tensile strength: No changes
Static Rating (surface resistivity):	1015-1016 Ω
Standard Warranty:	5 Years
Deflection zone:	250mm / 9,84in
